CHARTERING IN STYLE

KATALINA

Designed by Diana Yacht Design of the Netherlands, the 157ft (48m) motor yacht *Katalina* is British registered and embodies the most up-to-date construction techniques and communications systems. With a cruising speed of 12 knots, she is designed to carry up to 16 guests and a crew of 11 to 12. Her size and stately-home atmosphere do not prevent the *Katalina* from anchoring in small, unspoilt bays and sailing into quaint island harbours, so she

is able to enjoy the best of both worlds. The two staterooms on the main deck are equipped with dressing rooms, bathrooms with Jacuzzis, videos, televisions and stereos. On the deck below are six double cabins, all of which have stereo equipment and four of which have their own bathrooms. There is a grand piano in the drawing room; card, board and electronic games in the boat deck lounge and a refrigerator exclusively for champagne.

Water sports are well catered for, ranging from a jet-propelled Surfjet to deep-sea fishing equipment. The *Katalina* will sail anywhere in the Pacific, and places like Singapore, Fiji, Hawaii, Indonesia should fire your imagination...

With a range of more than 3,000 miles at a cruising speed of 12 knots, the *Katalina* can take you anywhere in the world you choose to go. The chef's huge variety of tempting dishes can be savoured at the elegant dining table (left) adorned with hand-painted china and table linen bearing the yacht's stylish 'K' monogram.

KATALINA
